THE suggestion that Dr. JORDAN's assistant should be appointed Deputy Health Officer difficulty that is calculated to commend itself to the Government. Such a precedent as this would establish would be most undesirable and calculated to impair the efficiency of the public service. If the Health Officer of the Port is to be allowed to make private arrangements with an assistant to do his work for him why should not other Government servants be allowed the same privilege? If the principle were admitted we might conceivably have one set of offiand another set of men, selected without holders of the offices. In effect, however, it is only officials who are allowed private practice who would have any inducement to appoint officials in Hongkong-has-been-reduced-tothe Health Officer of the Port and

the Crown Solicitor. It would hardly, we think, be suggested that the latter should be allowed to delegate his official functions arrest. to an assistant appointed by himself, nor does it seem consonant with sound policy. that the Health Officer should be allowed to do so. The scandal that has arisen at Shanghai in connection with an appointment made on this principle is suggestive of reasons why the same course should not be adopted in Hongkong. Every one would of course very much regret if the interests and is therefore a British vessel subject to of Dr. Jordan and the interests of the public were found incompatible, but in such | San Francisco on the 19th ult. states that | effect on or before 31st December next; that should prevail. Dr. Jordan by the terms of his engagment is entitled to private practice, and in proposing any alteration of those terms, or in effecting any reorganisation of the office that might lead to Dr. JOHDAN'S retiring, he would of course be entitled to very liberal treatment at the hands of the Government. The time has apparently arrived, however, when it is essential that the Health Officer of the Port should devote his whole time to the duties of his office and when the relationship in which he stands to the Medical and Sanitary Departments

should be readjusted. The Sanitary Boardsuggests that the change should not be made until a successor has to be appointed to Dr. Jondan in ordinary course, but that gentleman seems good for an indefinite length of service yet and if the Sanitary Board's view be adopted it may be twenty years or more before the change Whisky (smoky) that could not be replaced in | can be effected. It seems quite impossible, however, that the present conditions can be allowed to continue for any considerable length of time, as with the growth of the trade of the port the inconvenience and friction will increase year by year. change will have to be made sometime

London, Soth July The British Foreign Office notified Ambassador Hay this morning that Great Britain has accepted the proposition of the United States. for an international conference on the question of pelagic scaling in Bohring Sea, to be held at Washington during the coming Autumn.

Toronto, Buth July: 30th, says . The British Government will send representatives to Washington to attend the Behring Sea conference. Russis and Japan will also send representatives." London, 31st July.

If uch satisfaction is expressed in official and mercantile circles at the prospective settlement of the seal question by the sid of a conference at Washington, especially ha such an arrangement will remove a cause for hot discussion between the United States and Great Britain. Although at the outset of Mr. Foster's journey ciplomatists and newspapers here ridiouled the iden that there was anything necessary to be done. Ambassador Hay and Mr. Foster have completely changed this view, and Great Bitto is finally doing everything possible to meet the views of the United States. Doubtless this b partly owing to the support Mr. Foster's idea received from Russis and Canada. Sir Wilfrid Laurier and Sir D. H. Davies have all along invoured a conciliatory attitude towards the proposals of the United States

The conference will meet the third or fourth week in October, the exact date being left to be determined by the arrival of the British experts from the sealing ground. Great Britain will be represented by Sir Julian Pauncefote, the Ambassador, and Professor D'Arcy Thompson The United States will probably be represented. at Washington, and Russia by a commission, headed by Dr. Martens, Professor of International Law at the University of St. Petersburg, who was delegated by Russia to hold the pourparier with Mr. Foster, Canada will be represented by Sir Wilfrid Laurier and Sir L. H. Davies. The Conference will discuss the whole question as raised by the United States, will draft a scheme of protection for the scale, with details for carrying out the same, and will decide all claims. Its report will be no referendum, but as Russia and Japan are entirely favourable to the protensions of the United States and as great Britain is indifferent so long as Canada is satisfied the Conference may be said to be a diplomatic triumph for the United States, and a personal triumph for Mr. Foster, Onless it results in a divided report, which is not expected the governments concerned will immediately embody the scheme in a permanent agreement either in the form of an agreement or a mo-

sesson of 1898. THE NEW FRENCH REMEDY. THERAPION This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord.

Rostan, Johert, Velpeau, and others, combines all the desiderate to be sought in a medicine of the kind, and surpasses everything hitherto employed. THERAPION No. 1, in a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious discuses. In dysentery, piles, irrita-tion of the lower bowel, cough, bronchitis, asthmu, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording, prompt rolled where other well-tried remedies have

THERAPION No. 2, for impurity of the blood scurry, picaples, spots, blotches, pains, and swellings of the joints, secondary symptoms, disease of the lones, sore threat, and all diseases for which it has been too much a fashion to employ mercury, sarsa-parilla, &c., to the destruction of the sufferer's teeth and pain of health. This preparation parifies the 2.00 whole system through the blood, and thoroughly climinates every poisonous matter from the body.

THERAPION, No. 3, for nervous exhaustion, waste of vitality, and all the distressing consequences srising from early, error, excess, residence in hot, finger ends. unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the de-

THERAPION may be procured at 2/9 and 4/0, per package, of the principal Chemists and Merchants throughout the world. In ordering, the purchaser should state which of the three numbers he requires and observe that the word "THERA-PION "appears on the Government Stamp (in white letters on a red ground) affixed to every genuine package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery. Sold by A. S. WATSON & Co., Limited, Hongkong China and Manila.
